HD Woodson Senior High School

Washington, DC

cox graae + spack architects designed the new HD Woodson High School as the Design member of a Design-Build team. The original HD Woodson High School had progressed into an advanced state of disrepair necessitating its demolition. **cg+s** designed the new school to encompass the STEM curriculum with all academic spaces configured to meet the needs of this unique pedagogy focused on integrated learning in the fields of Science, Technology, Engineering and Mathematics. Additionally, the project is designed to achieve a minimum of LEED Silver certification featuring green roofs, abundant daylighting, and other green elements.

Services: New Construction, Design-Build, LEED Design
Completion: 2011
Area: 230,000 gsf
